For large-format construction plans and drawings

Product number :21128000

Topfeatures

- Transparent film as rain protection
- light version
- with terminal strips on all four sides for plans or drawings

All special features at a glance

- user-friendly
- weatherproof
- robust

Description

The NESTLE field table is made of high-quality processed hardwood and is comparable in construction and function to a "normal" field book frame. In addition, however, the underside is cross-reinforced and carries a flange with 5/8" internal thread. Thus the field table fits on any tripod with a 5/8" central tightening screw. Like all field book frames, the field table is supplied with carrying strap, aluminium and clear plate and strong pen holder. Insertion dimensions 630 x 450 mm, weight approx. 2.3 kg.
