

Universal target plate, height adjustable

For Zeta sewer construction laser with red laser beam

Product number :G821877

Topfeatures

- with two panel inserts

Description

Target plate Universal - red - (for red lasers). Height-adjustable target plate with tubular bubble for DN 150, 200, 250 and 300 mm. The laser must stand on appropriate feet. The target plate Universal - red - is supplied with two plate inserts (small 150-250 mm + large 300-400 mm), which makes it a real universal target.
