

## LEICA DISTO D1 5 pieces in a set (from no. 16721000)

### The price-performance favourite with a powerful free app

Product number :16721200

#### Topfeatures

- Fast and reliable
- Unit of measurement m, ft, inch
- Integrated Bluetooth® Smart for free app (iOS and Android)
- Precision at the touch of a button
- Single measurement and continuous measurement

#### All special features at a glance

- Measure distance in seconds, without help from another person, by simply pressing a button. Avoid the risk of work accidents during difficult and dangerous measurements, e.g. when measuring heights.
- Thanks to the precise laser technology, the Leica DISTO D1 starter model always delivers reliable measurement results. The operation of the device is very simple and intuitive.
- The Leica DISTO D1 connects quickly and easily to the free Sketch app from Leica DISTO for transferring and documenting measurements.

#### Description

The Leica D1 is the basic model of the DISTO series and impresses above all with its simple and intuitive operating concept. Nevertheless, it delivers precise and reliable laser distance measurements of up to 40 m according to ISO 16331-1 standard. In conjunction with the powerful free app DISTO Sketch, measurements can be conveniently documented and transferred.
