- For all German-speaking and European correction data services

Description

The full range of satellite signals, unlimited connectivity and the unique Tilt&Go function together in a compact GNSS make the Zenith35 Pro series a GNSS that works when you do. The Zenith35Pro is equipped with the latest 555-channel measurement engine and multi-constellation and multi-frequency support. This offers unprecedented performance. The Zenith35 Pro's unique Tilt&Go function allows you to measure inaccessible points thanks to the precise electronic level. Wi-Fi connectivity gives you the ability to configure the Zenith35 Pro from any device. The Zenith35 Pro series is IP68 certified, compact, robust and of course waterproof as well as dustproof. Please note that the price is only available on request.

Technical Details

Weight	approx. 1,200
RTK accuracy	hor = 8 mm + 1 ppm / vert = 15mm + 1 ppm
Protection class	IP68 g

Scope of supply

Zenith35 Pro, 2x battery, GSM antenna, Gainflex Radio Antenna, Charger with power supply unit, 4x earthing contact plug, USB cable, Bracket, Manual, VGA cable, Operating instructions
