

NESTLE tripod warning kilt

Safe and visible

Product number :13935001

Topfeatures

- self-closing
- with reflective stripes

All special features at a glance

- The reflective stripes additionally increase visibility and thus safety in the light.
- Ideal for use in tunnelling or in locations with poor lighting conditions.

Description

With the NESTLE tripod warning kilt you can increase the visibility of your instruments, for example in road traffic. The reflective strips increase visibility when light falls on them, making them particularly suitable for tunnelling or for standpoints with poor lighting conditions. You thus protect not only yourself but also third parties.
