

NESTLE DIGIT 35 angle gauge

Determine complementary angle quickly

Product number :17004001

Topfeatures

- Large digits in the LCD display facilitate reading even at shorter distances
- Switchable illumination makes the digits even more legible
- The horizontal and vertical spirit levels enable the unit to be used as a spirit level and clinometer.
- The reset function allows the angle gauge to be zeroed in any position, thus obtaining the complementary angle quickly and precisely without having to take a second measurement.
- Display and vials safely protected behind Plexiglas
- The measuring module is inside the housing and thus cannot be attacked from the outside.

All special features at a glance

- The operating time of a battery set is about 1.5 years.
- Innovative sensor system, guarantees very precise measurements
- The hold function makes it possible to read the values in places that cannot be seen
- Automatic switch-off with value storage
- Reset function

Description

The DIGIT 35 electronic angle gauge with a leg length of 35 cm is suitable for aligning furniture, for tiling or carpentry work. The horizontal and vertical bubble, which is protected behind Plexiglas, makes it possible to use it as a spirit level and clinometer. The complementary angle can be determined quickly and precisely without a second measurement thanks to the "reset"function.

Technical Details

Display resolution	0.05 °
Automatic switch off	after 5 Minuten
Operating time	approx. 1.5 Jahre
Accuracy	± 0,2 °
Weight	460 g
Length	348 mm
Power supply	2 x AAA
Temperature range	-5 to +35 °C

Scope of supply

DIGIT 35, Manual
