Description

The Automatic level of the NLS premium series are predestined for construction and engineering. The high-precision, magnetically damped compensator, the robust all-metal construction and the bright optics make the NLS an absolute professional tool. The HZ circle is smoothly adjustable, the side fine movement works endlessly and can be conveniently operated from both sides. This practical levelling set includes a 5 m telescopic levelling staff in addition to a high-quality aluminium tripod. With this set you are immediately ready for use.
