

NESTLE Prism Punch Marker (PN-1)

Mini prism pole with bubble level and integrated centre punch tip

Product number :14047000

Topfeatures

- Ideally suited for staking out close to the ground
- Made in Germany

All special features at a glance

- Exact setting of centre punch points on surfaces
- Suitable for many common prism types with selectable (included) adapter
- Durable centre punch with 120 N release force

Description

The NESTLE Punchmarker PN-1 is a mini prismatic rod with a centre punch tip. Use the PN-1 for all staking work close to the ground and place an exact centre punch on the surface. The punch is triggered by pressure from above on the rod, the triggering force is 120 -150 Newton, thus you get a clear and easily visible punch point on all surfaces.

Technical Details

Connection type top	all NESTLE M12 prism adapters
