

NESTLE tripod adapter 5/8" to 5/8" adapter disc and spigot

Tripod adapter for line laser

Product number :13902000

All special features at a glance

- The round base plate of the adapter is ideal for tripods with a large head plate opening.

Description

The tripod adapter makes it possible to mount a line laser with 5/8" connection on a standard tripod. To do this, the disc is placed on the tripod plate and then the extension spigot is attached to the central tightening screw. The stand feet of the laser are thus no longer a hindrance.

Technical Details
