

NESTLE spirit level, red, graduation 90-00

Level measurement made easy

Product number :18503000

Topfeatures

- Lightweight and easy to attach.
- Weatherproof and robust.

All special features at a glance

- Extremely simple fastening via four drill holes in the corners of the levelling boards
- The print is easy and comfortable to read on the white background, even from a distance.
- The gauge boards are made of high-quality rigid foam. At an initial temperature of 20°C, they are largely insensitive to the effects of weather, mineral oils and even diluted alkalis and acids.

Description

The hard foam gauge boards are suitable for determining water or liquid levels and reading the change. The four drill holes at the corners of the staffs allow for easy mounting. The gauge staffs are available with a numbering in red and black. The numbering is easy to read even from a distance. They are available in different divisions: starting from the bottom (00-90) and starting from the top (90-00). Please refer to the technical data for details.
